### HOW I CURED MY EYES

This is a Prescription Did it. "My eyes were in a terrible state; I could hardly stand it. They were red and inflamed, felt as though they had sand in them. They would ache and burn dreadfully and caused incessant headaches. I could hardly read at all. After wearing my glasses my eyes felt strained and overworked. By chance I met a man whose eyes had bothered him the same way. He gave me the following prescription, which he said had enabled him to discard his glasses. "If you wear glasses or have eye trouble similar to mine I advise you to have this formula filled at once. "A. G. Lukken & Co. or any druggist can fix it up for you. Here it is: "5 grains Optona (1 tablet). "2 ounces water. "Allow to dissolve, then bathe the eyes by means of an eye cup three to four times daily—often if convenient. Just note how quickly your eyes will feel fine. It does not smart nor burn, is absolutely harmless and any druggist who knows the formula will tell you that you need not hesitate to use it. If you try it I am sure you will be just as enthusiastic over it as I am. Cut this out so you will always have the prescription."—Adv.

## FOOD SUPPLY LARGE IN AUSTRIAN TOWNS

VIENNA, Dec. 6.—Almost since the war began the allied press has pictured conditions in Austria-Hungary as very bad. English, French, Russian, Italian and American newspapers have told their readers time and again, that the population of the dual monarchy was starving. These reports are exaggerations. Nobody will have to go hungry, at least not in Vienna. There is plenty of good rye bread and everybody has learned to get along without white bread. The municipal authorities of the capital have bought 6,000 carloads of potatoes and this stock will easily reach until spring. The city also has stored up enormous quantities of peas, beans and lentils. These foods are today much cheaper than they were last fall.
